Iron Man van de Padenborre is an international 1.60 m stallion from the legendary DARCO x CHIN CHIN. This outstanding horse is a true black beauty and world superstar.

His extraordinary international career is connected with the Belgium rider Gregory Wathelet. This couple took part in many CSI5* shows around the world including Nations Cup finals, Global Champions Tours, Championships etc.

Iron Man is a big and strong stallion with lots of power but he still has a lot of blood himself and is really very careful jumper.

Gestüt Lewitz

Frozen semen: 1000 € (+ VAT) max 2 doses

Beautiful, big framed and long-legged Chacco-Amicor is the son of the world-leading sire Chacco-Blue.

Chacco Amicor was jumping at the 1.6 m level for years, showing great canter and enormous scope. He won medals at Polish Championships and came out on top at the World Cup Qualifier in Budapest and 1.50 m class during CSI4* Poznan. He was the foundation of the Polish National Team at many Nations Cups.

His sire Chacco-Blue left countless amounts of Grand Prix progeny, including Olympic Champion Explosion W. Foals and embryos sired by Chacco-Blue are still breaking auction records, clearly showing that his genes are priceless.

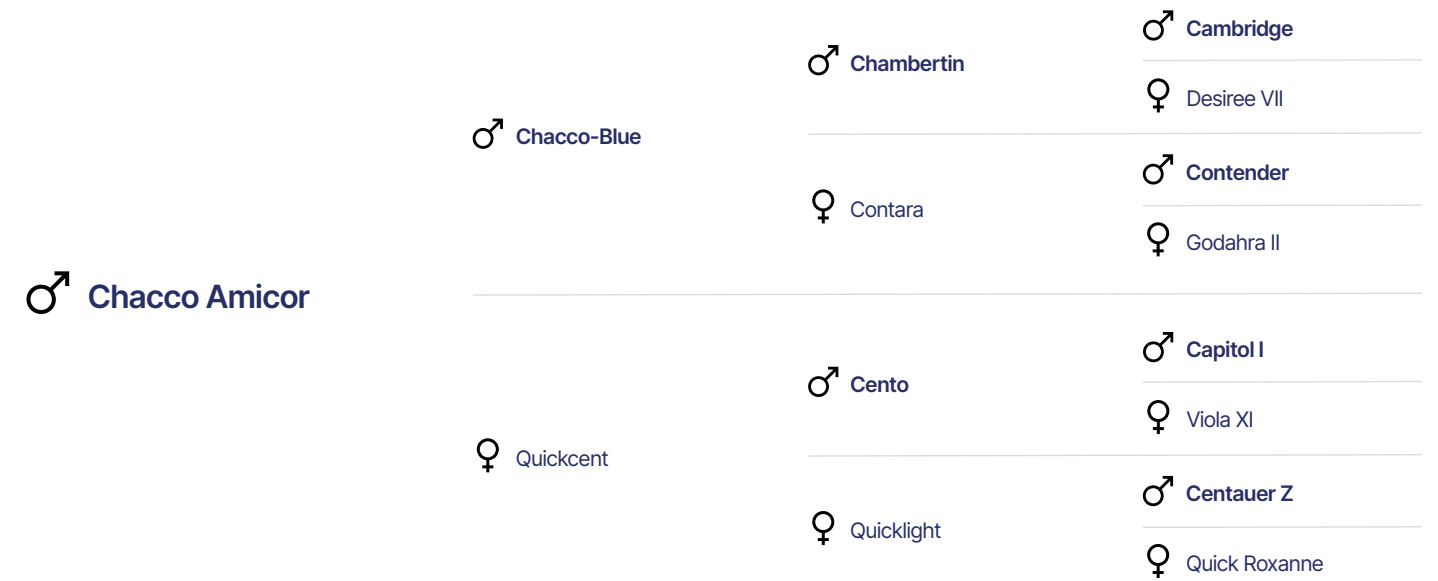

Dam of Chacco Amicor's dam was competing up to 1.40 m and is the sister of two 1.50-1.55 m jumpers. Used as a broodmare, she left seven horses that competed internationally at the 1.45-1.60 m level. The cross of her sire Cento and Chacco Amicor's sire Chacco-Blue is sometimes called a golden cross. Perfect examples are Chabento (4th at Polish Championships) and Chintablue, multiple winner of Polish Championships and 11th horse at the European Championships in Riesenbeck 2021.

The damline of Chacco Amicor is one of the best damlines owned by Paul Schockemöhle. It produced no less than seven 1.60 m jumpers, including two siblings of Chacco Amicor.
